---

To all our praying friends,

I just heard from Amy, Tom' wife, that the surgery has been confirmed to take place on Thursday June 4th at Geisinger Hospital in Danville PA. Please be praying for our two boys and their families. They are doing well in the Lord and are looking forward to Thursday as much as you can look forward to a surgery.

There was a set back last week with some of Tom's testing. They thought they found a heart issue with some of the testing. The heart cauterization done this morning found nothing that would hinder him from going through the surgery. WE ARE REJOICING! The tests done last week on Tom's heart showed that he had had a slight heart attack sometime in the last 10 months.

Tom and Amy live about two hours north of the hospital. Mark and Bonnie live in Tennessee. Please be praying for all the family as we travel to PA next week.

We are counting your prayers for the surgery to go well and for the Tom's body to receive the new kidney without any problems.

The doctors tell us that Mark will take longer to recover from the surgery than Tom. Tom will need to be in isolation for a few months until his immune system recovers.

Rejoicing,  
Tom and Sherrie
